SUMMARY

Reliable, outgoing, looking for a full-time position where my work experience, education, and skills can provide the opportunity for knowledge and growth in my developer career. Hold a professional certification in Full Stack Web Development and over 100 classroom hours experience of developing full stack applications using technologies such as HTML, CSS, and React.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, jQuery, Node.js, Responsive Design, Heroku, Git, User Authentication, PHP frameworks like Laravel, React.js, MySQL, MongoDB and MERN.

PROJECTS

Unheard Stories | https://bit.ly/3m6RHla

This application uses opioid death data and user stories about loved ones to paint a more human picture of the opioid crisis. A user will be able to submit a story, the story will show up in the USA map as a blue dot marker. In the map page the user will be able to see circles on the map which represent how many people have died of drug abuse in the States. Also the user will be able to click on the blue markers on the map to see stories from other users and see that this is an ongoing problem so they can help themselves or someone they know so they can stop using drugs.
•I worked with the google maps API
•**Technologies used**: Javascript, HTML, CSS, Node and Express server, Handlebars.js, MySQL database with a Sequelize ORM and deployed using Heroku.

SportsMentor | https://bit.ly/3m8cg0u

This application is for anybody that wants to learn about american sports. Users will be able to sign up for an account with email and password. Users will be redirected after login to the studyup page where users will see sports cards when clicking on one of the sports cards, users will be taken to the page for that sport where users will see videos and information and how to learn that specific sport.
 •I worked front-end and back-end
•**Technologies used**: Javascript, HTML, CSS, Node and Express server, MongoDB database with a Mongoose ORM and deployed using Heroku.

ACCOMPLISHMENTS

•Completed the Programming Boot camp spot at UCF
•Awarded for sale the most account insurance protection in the store

EXPERIENCE

05/2020 to 09/2020 Orlando,FL   **Full-stack Developer**   **University of Central Florida**
•Work with other students to plan, design and develop websites and applications.
•Use of programming languages: HTML5, CCS3, Javascript, JQuery, Node.js and more
